**BROKER:** An agent or intermediary negotiating the buying or selling contents of car, other than shipper or consignee.

**CLOSING EVENT:** The event in a car cycle that closes the cycle and results in computation of time and charges.

**CONSIGNEE:** The party designated on the bill of lading as the entity entitled to receive delivery of the car from the carrier.

**CONSTRUCTIVE PLACEMENT:** When a car, including order notify and in-bond shipments, cannot be actually placed or delivered because of any condition attributable to the consignee, shipper, loader or unloader, such car will: (a) be held on LBWR tracks and notice will be sent or given to the party entitled to receive notification that the car is held awaiting disposition instructions; (b) have been placed by LBWR on private or other than public delivery tracks, including lead tracks serving the consignee, shipper, loader or unloader, will be considered constructively placed without notice.

**CONSTRUCTIVE PLACEMENT TIME:** The time from constructive placement until a car is actually placed.

**DEMURRAGE:** Demurrage is a charge for detaining a railcar. Railroads charge demurrage as an incentive for customers to load and unload cars promptly, to prevent congestion in railroad terminals caused by idle cars, and ultimately to improve the utilization of a valuable asset.

**DESTINATION:** Billing destination, or if such destination is serviced by a terminal yard, then such terminal yard will be considered as the destination.

**DISPOSITION:** Information, including forwarding instructions and/or release, which allows the railroad to either Tender, as defined in this Item, or release the car from the shipper's, consignee's, loader's, or unloader's account.

Advice received by LBWR to move a car from a shipper's loading or storage track to LBWR' yard or hold track to be held for "forwarding instructions", whether furnished by the party loading car or another party, or a bill of lading or an order consigning the car to an Agent of LBWR which has no beneficial interest in the lading, does not constitute "forwarding instructions" or a release from demurrage or other like charges.

A bill of lading, or other suitable order, covering car(s) requiring clearance from all carriers in the routing will not constitute "forwarding instructions" until clearance is received from all carriers in the routing.

**FREE TIME:** The time allowed for the unloading or loading of cars.

**IDLER CAR:** An empty car used to protect overhanging loads, or used between cars loaded with long material.

**INDUSTRIAL INTERCHANGE TRACK:** Designated delivery or receipt track or tracks for the exchange of cars between carrier and industry performing their own switching including switch line acting as Agent for Industry.

**LEASED TRACK:** A track leased to a user through a written lease agreement and is considered the same as a private track for demurrage purposes.

**LINE-HAUL:** Movement between stations that are not located within the switching limits of the same station. Movement between stations located within the switching limits of the same station will be considered Line-haul when customer is not listed as open to reciprocal switching or when movement occurs from or to a leased track.

**LOADER:** Party physically loading the car.

**LOADING:** The complete or partial loading of a car in conformity with LBWR loading and clearance rules, advice that the car is available for movement, and the furnishing of forwarding instructions.

**REFUSED LOADED CAR:** An original loaded car refused at destination without being unloaded.

**RELEASE:** The notification received from loader or unloader that loading or unloading of a car has been completed and car is available for movement and forwarding instructions have been received, if applicable. Cars placed on industrial interchange tracks of an industry doing its own switching, including those tracks of an industrial switch line acting as Agent of industry, will be removed from track and considered received and held for disposition as provided in this Tariff. Cars found to be improperly loaded at origin will not be considered released until the load has been properly adjusted and clearance has been obtained. When a car is unloaded and then reloaded, empty release information must be furnished. If not furnished, demurrage will be continuous until forwarding instructions are received.

**ITEM 30**      **SECURITY DEPOSITS FOR PAYMENT OF CHARGES**

LBWR has the right to demand that a rail customer (LBWR served shipper, LBWR served consignee or other LBWR served party responsible for the payment of demurrage), with a history of delinquency or nonpayment of freight, demurrage or other charges not in bona fide dispute, deposit with LBWR money or security adequate to pay an **average monthly invoiced services calculated over the past six months or a per car fee based on potential services**. (1) The deposit may be satisfied with cash, letter of credit, surety bond or other appropriate instrument. LBWR will determine the suitability of the security tendered. (All instruments on deposit are hereinafter referred to as "security")

If a LBWR invoice not in bona fide dispute is not paid when due, immediately thereafter LBWR will satisfy the bill by drawing against the security on deposit. Thereafter, the rail customer will be required to reinstate the value of the security to its former level or to another level equivalent to its average monthly invoiced services or per car fee based on potential services.

Should demand be made upon a rail customer for the deposit or maintenance of security as heretofore stated and should the rail customer refuse or fail to deposit or maintain the security, LBWR may refuse to provide any further rail service until the deposit requirement is fulfilled. If service is refused and rail customer is the subject of congestion, LBWR will issue an embargo against all rail transportation by LBWR to and from that rail customer, so long as congestion exists or otherwise continues. In short, carrier may issue and maintain the embargo while the congestion exists, irrespective of rail customer compliance or non-compliance with the Security Deposit provisions in this Item.

No interest will be paid by LBWR on any security or monies deposited with it. It is within the discretion of the LBWR to determine when creditworthiness of the rail customer no longer necessitates the imposition of a security or deposit. If rail service to the customer is permanently discontinued, upon satisfaction of all invoiced bills the security on deposit held by LBWR will be released and returned.
